**MEDIA RELEASE**

**FOR IMMEDIATE RELEASE**

**Truck Borne Water Supply to Maracas and Las Cuevas Beach  
Facilities**

**PORT OF SPAIN, TRINIDAD (May 5, 2017)** – The Ministry of Tourism receives commitment from the Water and Sewerage Authority (**WASA**) to supply a truck borne water supply service at both the Maracas and Las Cuevas Beach Facilities to address the water shortage issue. Therefore, both facilities will remain open to the public.

This water shortage is a perennial issue as a result of the dry season. Improving water supply reliability is vital to maintaining smooth operations at the facilities for visitors, tenants and staff. The Honourable Shamfa Cudjoe, Minister of Tourism has been in discussions with the Chief Executive Officer and the Chairman of the Water Sewerage Authority (**WASA**) to address this issue.

**WASA** executives have assured Minister Cudjoe of their commitment to provide a reliable truck borne water supply service to the facilities, to ensure they remain open and accessible to the public.

The Ministry of Tourism is committed to providing a positive experience to all and continues to partner with the relevant stakeholders to ensure that this is maintained.
